EDUCATION

North Carolina State University • Raleigh, NC *2020-present*

GPA: N/A • Unweighted: N/A
Bachelor of Computer Science

Apex Friendship Highschool • Apex, NC *2016-2020*

GPA: 4.4 • Unweighted: 4.0
Academy of Engineering and Advanced Manufacturing
Certified in Microsoft Word and Powerpoint

WORK/VOLUNTEER

Signalscape *Summer 2019 and 2020*

At Signalscape I use my knowledge with virtual machines, back-end web servers and front-end frameworks to create a web app for displaying relevant information about running software defined radios. I used Javascript frontend frameworks and Javascript web server technologies.

Kramden *Volunteer*

Volunteering at the Kramden Institution entails helping refurbish old or broken computers in order to resell. Taught me about potential workplace team roles.

WORK BASED LEARNING

FIRST Robotics Competition

A program designed to inspire high school students to become engineers by giving them real world experience working with engineers to develop a robot

- FIRST has helped develop my problem solving, time management and team communication skills.
- Lead Programmer for Team 2059.
- Four District Championship Wins

Technology Student Association

A national student organization designed to develop skills in science, technology, engineering, and mathematics or STEM

- Learned valuable team dynamics and leadership skills by managing a team of multiple people.
- Second place at State Conference for Software Development.
